

**MidWest Materials Names Loveman
Director of Sales, Plate Products**

FOR IMMEDIATE RELEASE

Perry, OH August 29, 2017 – MidWest Materials is proud to announce the appointment of Rob Loveman as Director of Sales, Plate Products. Loveman has over 25 years experience in the steel industry serving as Executive Vice-President of Loveman Steel Corporation.

While at Loveman Steel he managed 80 employees, including all sales representatives while developing and growing the customer base. When asked why he joined MidWest Materials, Loveman stated, “I just wanted to be here. They have a very progressive Steel Service Center, an outstanding history covering three generations and 65 years, and a great team. Their values match those I grew up with and live by.”

Additionally Loveman is excited about MidWest’s commitment to expanding its offerings in steel plate products. “With MidWest’s stretch leveling capabilities we can deliver memory-free steel plate .640” thick, up to 100” wide and 54’ long. We stock high strength, weather bearing and pressure vessel materials perfect for many industries,” stated Loveman. MidWest Materials supplies sheet and plate cut to size, shape, or drawings.

Loveman has served the metals industry as Vice-President and President of the Metal Service Center Institute, Northern Ohio Chapter. He has been named Steel Person of the Year by American Women in the Metals Industry.

Rob and his family live in Bainbridge, OH where he volunteers with the Girl Scouts, Autism Speaks, Crohn’s & Colitis Foundation, and is a prior trustee for his home owners association. Loveman has a Bachelor of Science in Business Administration from The Ohio State University.

About MidWest Materials
